

Physics 413  
Introduction to Biophysics  
TuTh 11:00 am  
Spring 2013

Instructor: Dr. Joel Mobley  
Room 1034, NCPA  
Phone: 915-6937  
[jmobley@olemiss.edu](mailto:jmobley@olemiss.edu)

Office Hours: Tuesday 12:45-2:15, Lewis Hall Room 203 (Optics Lab)

By appointment at **1034 NCPA**  
I will be available on MWTh 2:30-4:45  
Email me if you plan to come to NCPA (see map on next page)

Final Exam: Tuesday, May 7<sup>th</sup>, 12:00 pm

Textbook: **Biological Physics: Energy, Information, Life**, Philip Nelson

References:

**Biophysics** by Roland Glaser  
**Biophysics, An Introduction** by Rodney Cotterill  
**Biological Thermodynamics** by Donald T. Haynie  
**Physics in Biology and Medicine** by Paul Davidovits

Learning Objectives:

After completing this class the student should understand the following:

- how the principles of physics underlie life processes at the cellular level,
- how to apply physics knowledge to solve problems in biology and biomedicine,
- the physical principles of biomedical diagnostic techniques such as ultrasound, x-rays and nuclear magnetic resonance.

Content: For the first half of the class, we will study the role of physics in life processes. For the other half of the course we will discuss the physics of biomedical diagnostic imaging.

**Student Presentation:** *Each student is required to give a 15 minute presentation in order to successfully complete the course.* The subject of the presentation must be approved by the instructor. The only requirements are that potential topics be related to biophysics, biology or biomedicine. The student will submit a list of questions based on their presentations for possible inclusion on final and/or the 2<sup>nd</sup> exam. The schedule and related deadlines will be discussed in class.

**Article Discussion:** Throughout the semester, we will have class discussion days where a scientific article is reviewed. Students must read the article in advance and come prepared to participate in the discussion. The articles will be available in electronic format prior to the class.

**Policy on Absences:** Attendance will be taken on article discussion days and student presentation days.

#### **Lecture Notes and Supplementary Materials:**

Supplementary materials used during the course will be posted on Blackboard. Some of the lecture notes will be provided. Availability of these lecture notes will be based on attendance for the relevant class.

#### **Grading**

25 % each	2 Midterm Exams (To be scheduled)
25 %	Final Exam (May 7 <sup>th</sup> , noon)
15 % total	Homework (4 to 6 assignments over the semester)
10 %	Student Presentation

#### **Grading Scale**

A: 100.0 – 92.0	B+: 87.4 – 82.5	C+: 74.9 – 70.0	D: 62.4 – 50.0
A-: 91.9 – 87.5	B: 82.4 – 78.5	C: 69.9 – 66.0	
	B-: 78.4 – 75.0	C-: 65.9 – 62.5	F:<50.0
