

PHYS222  
Sample Results

**Electric Fields & Potential**

**Part 1- Mapping two point charges** (short summary statement on primary observations from this part of experiment)

**Electric Field Strength middle-\_\_\_\_\_ V/m**

**Part 2- Hollow concentric circles (the following principles were verified)**

(List what principles you verified in this part of experiment)

Please note that principles summarized above are to be discussed in the Discussion part of writeup. **So keep results short.**
